GENERAL INSTRUCTIONS

Group 1, 2, 3

Suitable for children 9 to 36kg.

THIS DOCUMENT CONTAINS IMPORTANT INFORMATION AND MUST BE KEPT WITH THE SEAT FOR FUTURE REFERENCE.

This product should be used forward facing until the child is too large for the seat or exceeds 36kgs.

This product should never be used rearward facing.

CLEANING & CARING

Check your car seat for cuts & bruises. If your product is damaged in any way, or you're not sure how to use it, please consult our web support from where you can access a local customer care team.

Caring for your car seat

Unlike children, your car seat likes to stay clean.

Cleaning the fabric cover:

- Read the label on the removable cover for washing instructions.
- Hand wash in warm water only.
- DO NOT tumble dry.
- The fabric cover can be easily removed for washing.

1. Remove the cover and machine wash it at 30°C; line dry only.
2. To replace the cover follow the instructions above in reverse.

Cleaning the seat:

- Sponge clean only. Use hand soap and warm water.
- DO NOT use solvents, detergents or washing up liquids as these may weaken the seat.
- DO NOT lubricate or oil any part of the seat.
- DO NOT wring.
- Dry thoroughly before storage.
- Store in a well ventilated space, away from direct sunlight which could damage or fade your product.
- Store in a safe place when it is not being used. Avoid placing heavy objects on top of it.
- DO NOT allow to come into contact with corrosive substances e.g. battery acid.

The correct use and maintenance of your car seat will ensure it gives long and trouble free use. When somebody else is using your car seat, ensure that they also know how to use it and especially the correct way to adjust it. The safety of your child is your responsibility.

IMPORTANT

Please read thoroughly before commencing installation as an incorrect installation could be dangerous.

- Only suitable for use in vehicles fitted with a three-point seat belt approved under UN/ECE 16 or equivalent standard.
- The category of this child restraint system is “SEMI-UNIVERSAL” and it is suitable for installation in the vehicles and in the seat positions indicated in the vehicle list on mountainbuggy.com.
- Other vehicles and seat positions may also be suitable for this restraint system.
- If in doubt, consult the manufacturer, retailer or certified installer.

If your vehicle is fitted with ISOFIT fastening points the seat can be fitted using its ISOFIT connectors.

CONSULT THE INSTRUCTION MANUAL FOR YOUR VEHICLE TO LOCATE THE FASTENING POINTS OF THE ISOFIT SYSTEM. IF IN DOUBT, CONSULT YOUR CAR DEALERSHIP.

WARNINGS

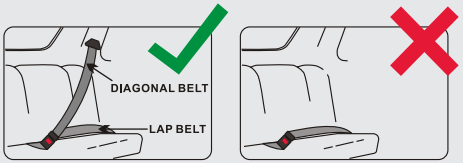
- PLEASE READ ALL INSTRUCTIONS IN THIS MANUAL AND IN THE VEHICLE OWNER'S MANUAL RELATED TO CAR SEATS CAREFULLY AND UNDERSTAND THEM. INSTALL AND USE THE CAR SEAT AS DESCRIBED IN THE INSTRUCTION MANUAL. FAILURE TO DO THIS COULD RESULT IN SERIOUS INJURY OR DEATH OF YOUR CHILD.
- Do not remove any labels on the car seat. Important information is contained on the labels.
- Do not use a car seat that has been in a crash. A crash can cause damage to the car seat that you cannot see.
- Do not replace the car seat cover with any other than the ones we recommend as these parts are integral to the car seat's performance.
- Do not use a second-hand car seat or car seat whose history you do not know. The rigid items and plastic parts of a child restraint must be so located and installed that they are not liable, during everyday use of the vehicle to become trapped by a movable seat or in a door of the vehicle.
- Do not use on the vehicle seats that face the sides or rear of the vehicle. Use the car seat only on the vehicle seats that face forward.
- Do not use in any configuration not shown in the instructions.
- Never use this car seat with 2 point vehicle belts.
- Do not use a car seat with damaged or missing parts.
- Do not modify or attempt to modify the car seat in any way.
- Do not take apart or attempt to take apart

this car seat except as instructed in this manual.

- Do not use belt routing methods not shown in these instructions.
- Do not use any load bearing contact points other than those described in the instructions and marked on the child restraint.
- Do not allow children to play with or adjust the car seat.
- Do not use this car seat in a passenger seat with an active airbag unless the vehicle manufacturer confirms that it is safe.
- This child restraint should be securely belted in the vehicle even when not in use. In a crash or sudden stop, an unsecured car seat may injure other occupants. Make sure to properly secure any loose objects, such as luggage or books, in your car as they may cause injuries in the event of an accident.
- Never leave your child unattended in a car even for a short time.
- Never take your child out of the car seat when the vehicle is moving.
- This car seat is designed to be used only in vehicles; do not use outside of vehicles. Never use this car seat without the child safety seat cover.
- Hot! Cover the car seat when left in direct sunlight. Parts of a car seat may become too hot for the child's skin. Always check surfaces before placing a child in the car seat.
- Any straps holding the restraint to the vehicle should be tight, that device restraining the child should be adjusted to the child's body, and that straps should not

be twisted; ensuring that any lap strap is worn low down, so that the pelvis is firmly engaged.

- Don't let the adult safety-belt buckle interfere with the main load bearing contact points on the car seat. Please contact the car seat manufacturer if in doubt about this point.



Do not use on a passenger seat with a front airbag.

✓	On outer rear seat	YES
⚠	On centre rear seat with 3-point belt	YES
✗	On a rearward-facing seat	NO
✗	On seats facing sidewards	NO
✗	On rear seat with lapbelt only	NO
⚠	Front seat with airbag off	YES

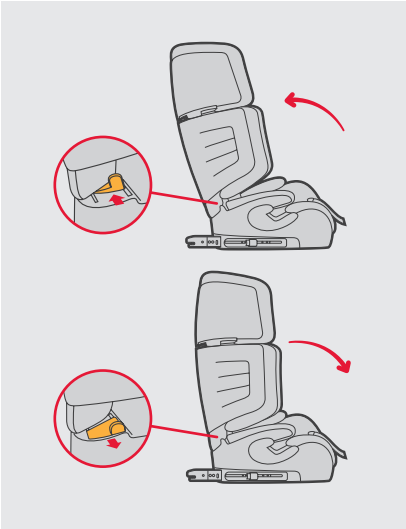
11 Belt Guide
12 Backrest Cover
13 Backrest Angle Supporting stop
14 Belt Guide
15 Base Adjustor



ADJUSTING BACKREST AND HEADREST

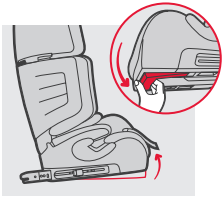
Backrest Angle Adjustment

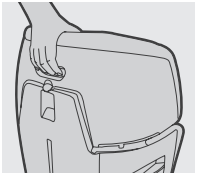
There are 2 positions for the Backrest.

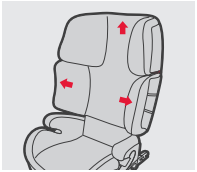
1. Push outwards the Adjustment Stops on the two sides and the backrest can be adjusted into Upright Position.

2. Push inwards the Adjustment Stops on the two sides and the backrest can be adjusted into Recline Position.

NOTICE:
Please confirm the position of the Adjustment Stops on the two sides before use. Please Do NOT use the car seat when the position of the adjustment stops are inconsistent.







Base Supporting Angle Adjustment

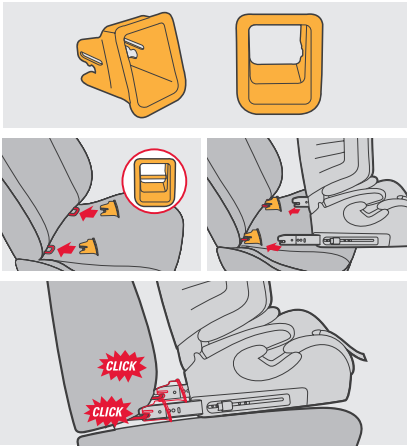
While used as group 1, the car seat Base Adjustor can be pulled out to adjust the base angle.

WARNING:
The car seat Base Adjustor is only used for group 1 (from 9–18kg).
Please do not pull out the Base Adjustor for group 2 and 3 (from 15–36kg).

Adjusting Backrest Height

Hold the Release Handle on the back of the backrest and push/pull up and down at the same time to adjust the height of the backrest. (The Protection Flanks will open automatically when adjust the backrest height to fit the body of the baby.)

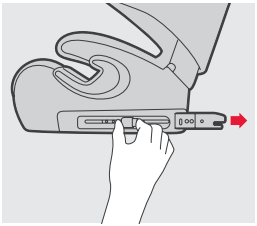
NOTICE:
Please adjust the car seat Backrest height according to the height of the baby to make the Headrest height and Protection Flank width suitable to protect the baby.



ISOFIT instruction

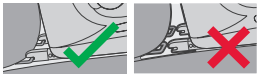
Note:

Please install the ISOFIT guider sleeve onto the ISOFIT anchorage (1) when connect the ISOFIT connector to the anchorages which is between the vehicle seat surface and the vehicle back. See diagrams:



Pinch the FIX Adjustment Buttons on the two sides and push out the legs.

Pull the car seat outwards to ensure the FIX Connectors are locked well.

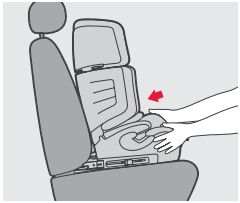


Child Restraint with Safeguard (9-18kg Child)

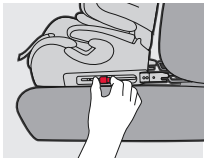
WARNING:

In order to use the restraint as group 1 (from 9 to 18 kg) it should be used along with the safeguard.

The car seat MUST be used with a 3 point vehicle seat belt when used as a child restraint with safeguard.



Push the car seat backwards till the car seat backrest is against the vehicle seat backrest.



Put the baby into the car seat and insert the safeguard in the front. Meanwhile, pull the vehicle belt latch plate, route the vehicle shoulder and lap belt through the belt guides on the two sides of the safeguard and lock the vehicle belt latch plate into the belt buckle on the other side. Settle and tighten the vehicle belt.

WARNING:

Check and ensure the FIX Connectors on the two sides has been locked correctly. Check and ensure the safeguard has been installed into the car seat correctly and restrainted by the 3 point Vehicle Belt.

How to take the child out of the restraint

- Unfasten the vehicle seat belt, and open the safeguard.
- Take the child out of the restraint system.
- Fit the safeguard again and fasten the seat belt.

WARNING: Safeguard should always be secured in vehicle when not in use.

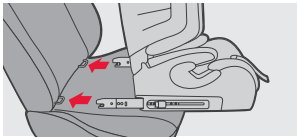
Removing the restraint from the car (group 1)

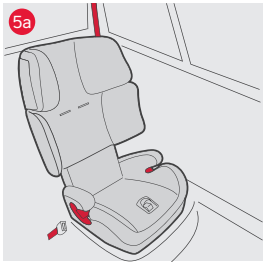
- Unfasten the vehicle seat belt.
- Pass the seat belt through the guides on the safeguard and remove it.
- Pinch the FIX Release Buttons on the two sides to release the FIX Connectors.
- Take the restraint off the vehicle seat.

Child Restraint without Safeguard (15-36kg Child)

The child seat MUST be used with a 3 point vehicle seat belt when used as a booster. Safeguard will need to be removed.

Put the car seat on the vehicle seat, align it with the ISOFIT interface in the vehicle seat and push forward. “Click” will be heard when the FIX Connectors are locked.





1. Put the child seat on a forward-facing vehicle seat (5a).

2. Have the child sit on the booster seat so their back contacts the backrest from shoulders to bottom. (5c)

3. Adjust the headrest to fit the child. so the vehicle belt passes over the center of the child's shoulder. (5b)

4. Position the vehicle belt over the child. Make sure the vehicle lap belt passes under both armrests of the booster seat, and the vehicle shoulder belt passes under the armrest on the side where the seat belt is buckled and through the upper belt guide. Check that the vehicle belt is not twisted and then buckle it. (5c)

WARNING

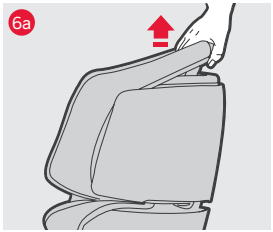
- Make sure the lap section of the vehicle belt rests as low as possible over the child's hips and that the shoulder section of the vehicle belt is positioned over the centre of the child's shoulder.
- Verifiy that the vehicle buckle does not interfere with the armrest or side of the booster seat. If it does, move the car seat to another vehicle seating position.
- Do not route the vehicle belt using any other path when using this car seat. For assistance contact your retailer or Mountain Buggy.
- Do not use 2 point vehicle belts to install this car seat.
- Only install this car seat on forward-facing vehicle seats.

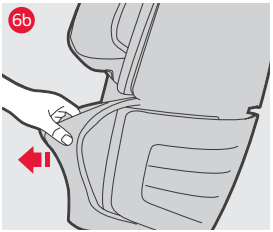
REMOVING THE COVER

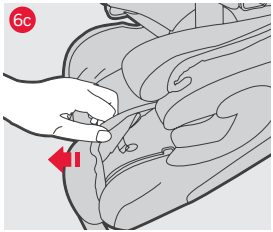
1. Remove the headrest cover. (6a)
2. Remove the backrest cover. (6b)
3. Remove the cushion cover. (6c)

REMOVING THE COVER

The plastic shell of the seat is comprised of two layers (inner and outer) with a small gap between. Secure the cover by feeding it between the two layers as shown in the diagrams, beginning at the headrest and working down to the seat cushion.







CARE AND MAINTENANCE

Periodically inspect your car seat for worn or damaged parts. If damaged parts are found, replace the child seat.

COVER

The fabric parts can be cleaned according to the instructions on the washing label.

HAND WASH ONLY (30°Warm)

Use Mild Detergent

Do not Iron, Dry Clean, Bleach or Tumble Dry

Dry flat - away from direct heat

DO NOT USE BLEACH, ABRASIVE OR UPHOLSTERY CLEANING AGENTS
